Annotated Works Cited

ICRC. "Humanitarian impacts and risks of use of nuclear weapons." Conference. 2020.

<<https://www.icrc.org/en/document/humanitarian-impacts-and-risks-use-nuclear-weapons>>.

The report provides information on the nature and impacts of nuclear weapons on humans. It reviews the need to address the challenges of irresponsible nuclear weapon use and its potential effects on humans, drawing from lessons from the Hiroshima and Nagasaki bombings.

Kristensen, H and M Korda. "Tactical nuclear weapons, 2019." Bulletin of the Atomic Scientists 79.5 (2019): 252-261. <<https://doi.org/10.1080/00963402.2019.1654273>>.

The article reviews the history of the use and armament of nuclear weapons in Russia and the United States. It reiterates the role of politics in nuclear armament and the effects of such motives in creating the Cold War.

Mount, A. "What Is the Sole Purpose of U.S. Nuclear Weapons?" 2021.

<<https://s3.amazonaws.com/uploads.fas.org/2021/08/25092950/FAS-SPNW.pdf>>.

The source reviews the motivations for adopting nuclear weapons in the U.S. It identifies the need to protect self-interests and deterrence as the major motivation for possession of nuclear weapons and the similarity of such motives across different countries.

Scouras, J. "Nuclear War as a Global Catastrophic Risk." Journal of Benefit-Cost Analysis 10.2 (2019): 274-295. <<https://doi.org/10.1017/bca.2019.16>>.

The source takes a benefit-cost approach to assessing the impacts of nuclear war across human, plant, animal, and environmental states. It identifies the high costs associated with a nuclear war and its paradigm-altering nature relative to life as it exists.

Talmadge, C. "The Ukraine crisis is now a nuclear crisis." The Washington Post February 2022.

<<https://www.washingtonpost.com/politics/2022/02/27/ukraine-crisis-is-now-nuclear-crisis/>>.

The source reports on the advancements in the war between Russia and Ukraine following the latter's invasion by the former in a full-scale operation in February 2022. It identifies the war's intonations towards adopting and deterring nuclear war.

Woolf, A and J Werner. "The U.S. Nuclear Weapons Complex: Overview of Department of Energy Sites." Defense Technical Information Center, 2021.

<<https://apps.dtic.mil/sti/pdfs/AD1131664.pdf>>.

The source reviews the internal political aspects behind the weaponization of the U.S. using nuclear weapons in the Obama and Trump administrations. It identifies conscious and strategic efforts towards increased nuclear weaponization in the U.S.
